Simple. Smart. Home.

Make your home smart simply with PIXIE

PIXIE

Control that everyone can use.
Its your home made smart. simply.

PIXIE

PIXIE is a smart home solution designed for Australian homeowners to experience the benefits of smart home technology without the expense of legacy home automation solutions.

A PIXIE smart home provides families all the benefits of modern living, putting them in control of comfort, convenience, security, safety and energy savings.

PIXIE delivers total control of the smart home into the homeowner's hands with intuitive mobile Apps to setup, configure and control their home instantly.

PIXIE is designed for Australian homes and wiring practices, and supported by PIXIE Certified Installers, nationally.

" Connected Home. Simple. Smart. Secure

" You can start small with a few rooms and expand your smart home experience when budgets allow, or go all-in day one. With PIXIE, you choose.

PIXIE

Make your home smart, simply with PIXIE and PIXIE Plus

Complete control of your smart home from a choice of the PIXIE or PIXIE Plus apps on both iOS and Android devices.

The SAL PIXIE app delivers an intuitive in-home control experience, using the Bluetooth on your mobile devices to connect to your mesh of PIXIE devices installed.

The PIXIE Plus app adds advanced system capabilities, introducing voice control and remote monitoring options, with more sophisticated security setup for larger homes and families,

FREE to download

Control your home with your Voice

Everyone can experience the convenience of hands free control with PIXIE.

PIXIE voice control is the ultimate in a modern smart home, without any of the technical hassles or ongoing fees.

Connecting the PIXIE Gateway is your bridge to a truly connected home.

PIXIE

Simple. Smart. Home.

Smart.

PIXIE Smart home technology increases the IQ of your home.
Sophisticated control capabilities built into every smart Bluetooth® Mesh module, with the simplicity of standard light switches and the convenience of mobile app control for even smarter control options.

Smart enough to make it simple to use.
With PIXIE, homeowners can create new schedules and scenes using the the PIXIE apps; then edit, enable and disable these whenever desired, without having to call anyone to make these changes for them.

PIXIE Gateway

PIXIE and PIXIE Plus
Mobile Apps

Simple.

It's simple to install and control via PIXIE Apps.
With no special wiring requirement and the PIXIE apps, everyone has control whilst at home, and upgrade to the PIXIE Plus app for a more intuitive user interface, security options and enhanced security and control capabilities, including out of home control.

Wall Plates, Wall Plates, Wall Plates
Often overlooked in smart homes system is the simplicity of a light switch on the wall, and the peace-of-mind provided to homeowners with this traditional interface.

PIXIE smart modules fits in to a wide range of popular Australian wall plates, ensuring you're always in control from the wall, with the freedom to choose wall plate designs.

No Hub Needed
No hub or internet connection is required to increase the IQ of your home. With PIXIE, no matter the state of your internet connection or WiFi network, your smart home keeps operating.

Home.

Adapt to your home. Start small and grow.
How smart your home becomes often depends on your budget. Choosing PIXIE means you can start with one or two rooms and expand over time to include the whole home as your budget allows.

Scale the PIXIE smart home to almost any size.
Or you can go all-in from day one and PIXIE-FY your whole home from the day you move in and experience the benefits of a fully automated home.
